ITEM 2. ACQUISITION OR DISPOSITION OF ASSETS.

See Item 5.

ITEM 5. OTHER EVENTS.

a. On May 7, 1998, the Company issued a news release announcing its intention to pursue a plan to spin off its elevator business ("Elevator Spin") to Company stockholders as an independent publicly traded company, a copy of which was filed as an exhibit to a report on Form 8-K dated May 7, 1998 which report was filed with the Securities and Exchange Commission on May 8, 1998. Pro forma Condensed Financial Information showing the effect of the Elevator Spin is included in Item 7.

b. In connection with a proposed offering of notes and debentures by the Company under the Registration Statement on Form S-3 which was declared effective by the SEC on March 24, 1998 (the "Notes and Debentures Offering"), the Company intends to note in the Prospectus (and in a supplement thereto) relating to the Notes and Debentures Offering that the Company emphasizes growth and strong internal cash flow. It has a long-standing and successful acquisition program pursuant to which, from January 1, 1993 through December 31, 1997, the Company made 60 acquisitions at a total acquisition cost of \$1.375 billion. These acquisitions have had a substantial impact on the increase in the Company's sales and earnings since 1993. The Company's acquisition program traditionally focused on acquiring new or stand-alone businesses. However, since 1993, increased emphasis has been placed on acquiring businesses which can be added to existing operations. Approximately 35% of the \$1.375 billion mentioned above was spent on this type of acquisition. In 1997, the Company completed two "stand-alone" and 15 "add-on" acquisitions at a total cost of about \$261 million. In the three months ended March 31, 1998, the Company completed two "stand-alone" acquisitions and three "add-on" acquisitions at a total cost of \$120 million. The Company has completed additional acquisitions since March 31, 1998. The Company has no target or budget for annual acquisition spending and is constantly seeking businesses marked by growth, innovation, higher than average profitability, and market leadership. Based on acquisitions completed, and discussions in progress, the Company expects acquisition spending in 1998 will exceed that of 1997 and is likely to exceed, possibly by a significant amount, the previous record level of \$323 million (in 1995). There can be no assurance, however, that the Company will find this level of appropriate acquisition opportunities and be able to acquire them on acceptable terms. The Company believes that the total 1998 acquisition cash requirements will be funded from internal cash flow, commercial paper backed by existing bank lines of credit, the expected dividend from the Elevator Spin and the proposed Notes and Debentures Offering. No assurances can be given that the proposed Notes and Debentures Offering of debt securities will be consummated.

FORWARD LOOKING STATEMENTS

This Report on Form 8-K contains forward looking statements within the meaning of the Securities Act of 1933 (as amended) and the Securities Exchange Act of 1934 (as amended). Forward-looking statements are subject to inherent uncertainties and risks, and could be affected by general industry and market conditions and growth rates, and general domestic and international economic conditions including interest rate and currency exchange rate fluctuations. In light of these risks and uncertainties, actual events and results may vary significantly from those included in or contemplated or implied by such statements. The Company undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

ITEM 7. FINANCIAL STATEMENTS, PRO FORMA FINANCIAL INFORMATION AND EXHIBITS.

Pro forma Condensed Financial Information.
Pro forma Condensed Balance Sheet at March 31, 1998.
Pro forma Condensed Statement of Earnings for the three months ended March 31, 1998.
Pro forma Condensed Statement of Earnings for the year ended December 31, 1997.
Pro forma Condensed Notes to Financial Information.

DOVER CORPORATION
PRO FORMA CONDENSED FINANCIAL INFORMATION

The following presents unaudited pro forma condensed financial information of the Company, as adjusted to give effect to the Elevator Spin as of the beginning of the earliest period presented for statement of earnings purposes and as of the end of the period presented for balance sheet purposes. The unaudited pro forma condensed financial information assumes that Dover Elevator will borrow \$175 million from external sources and use it, together with excess cash on hand to pay a dividend of \$200,000 (see Note 1) and settle its intercompany obligations, however, these financing arrangements are not finalized. The \$175 million represents the mid-point in a 150-200 million range, which will occur based on Dover Elevator's financial position at the spin-off date. The historical financial information for Dover Elevator has been derived from the historical financial statements of the Company and is intended only for presentation of the Company's pro forma financial information. This data is presented for illustrative purposes only and is not necessarily indicative of the financial position or results of operations of the Company or Dover Elevator which would have occurred had the spin-off actually been consummated as of such dates, nor is this information indicative of the future financial position or results of operations of the Company or Dover Elevator. The information set forth below should be read in conjunction with "Management's Discussion and Analysis of Financial Condition and Results of Operations" included elsewhere in the Prospectus and the Consolidated Financial Statements and Notes thereto of the Company incorporated herein by reference.
