Ratings ⁽²⁾ :	Baa1 (Stable Outlook) (Moody's); BBB+ (Stable Outlook) (S&P)

- (1) Dover Corporation expects that delivery of the Notes will be made against payment therefor on or about November 2, 2026, which is the fifth London business day following the date of pricing of the Notes (this settlement cycle being referred to as “T+5”). Under Rule 15c6-1 of the Exchange Act, trades in the secondary market generally are required to settle in one business day, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade Notes before the date that is one London business day prior to the settlement date will be required, by virtue of the fact that the Notes initially will settle in T+5, to specify an alternate settlement cycle at the time of any such trade to prevent a failed settlement and should consult their own advisors.
- (2) A securities rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time.
